

Ithaki
HOUSE

VACATION HOME RENTAL

Pet Policy

Ithaki House is a dog friendly property and welcomes small to medium size dogs (up to 15-16kilos), that are house trained. We allow only one dog at a time. We are delighted to host you and your four-legged member of the family! We trust that they will have a fabulous time just like their owners (!)

For your own comfort and for the comfort and safety of future guests, there are certain requests that apply to our Pet Friendly Home which we kindly request that they be followed. Whilst our aim is that you all have an amazing and memorable stay, it is essential that there is no evidence of our pet friends upon your departure - no chewed or damaged furniture or household items, no excessive dog hair, no accidents in the home, no odors, no stains, and no piles of doggy droppings around the home (inside or out). You are responsible for any damages your pet causes; evidence of dogs will result in an appropriate charge after your departure and we desperately want to avoid that.

Kindly note that you are solely responsible for your dog while on the property.

As you can see the yard is well gated and safe for your dog, at both the front and the back of the house. Further, our poolman has been advised that we have a pet visitor and to ensure that the gates are securely closed when he is in/out of the property for the pool maintenance. However, we do strongly advise that you **double check that gates are secured and closed before you let your dog in the yard.**

During your stay we kindly request that you:

- Clean up after your dog, both in public areas and in the yard of the property. We supply pink plastic bags for this reason.
- Do not allow your dog on the furniture or the beds. Is preferable to use his bed. We also make available a special throw that can be applied on the sofas/bed for your dog to sit/sleep on if required.
- Don't leave your dog unattended for long periods of time. We recommend **you do not leave your dog loose in the yard or inside the entire house whilst you are away.** It is safer to be kept on the bedroom veranda which is secure and out of reach. You may leave the bedroom/veranda door partially open and the bedroom door to the remaining house closed.

- Do your best to clean and dry your dog after a walk (we have supplied an old towel that can be used for this); **wet dogs are not allowed in the house**. Please wash off sand and salt water upon returning from the beach and spend time with the dog outside until dry.
- Do not allow your dog in the swimming pool.

We trust that the above make sense to all pet owners and pet lovers and are simply in place to ensure you and your pet have a fabulous, safe and memorable holiday!

Thank you again for choosing Ithaki House for your holiday! Relax and enjoy your stay!

Wishing you a *pawfantastic* time!
